

Additional Important Info

When a call is placed to 911 the dispatcher will send the closest unit. MAL has reciprocal agreements with other Perry County BLS Companies. If MAL is unable to respond to your emergency and you or your family members are transported by another Perry County BLS company your subscription will be honored. Reimbursement will not be made by PSHLL for ALS services provided by covering ALS agencies.

If you or your family members would require emergency medical services outside of Perry County your subscription will not be honored.

Emergency Medical Services are broken into two levels of care. Basic Life Support (BLS) and Advanced Life Support (ALS).

BLS is an ambulance staffed by an EMT and a driver. They respond to critical and non critical calls. The BLS company will transport patients to the hospital. MAL is a BLS company.

ALS is a unit that is staffed by a paramedic. They respond to higher acuity calls. These units provide treatments for cardiac events, strokes and multi system trauma. They provide medications, start IV's and do cardiac monitoring. The ALS providers will work with BLS companies to treat patients while being transported to the hospital. PSHLL is an ALS provider.

Subscriptions will NOT cover non-emergency or routine transports.

MAL reserves the right to refuse or revoke any subscription.

Individuals must have health insurance or Medicare to be eligible for membership. The subscription program is not applicable for Medical Assistance recipients.

If a unit is called and you **refuse to NOT be transported**, you will receive a bill **NOT covered under membership**.

A permanent resident over the age of 18 **DOES NOT qualify as a guest**. A single or family membership is required.
